

Five Star Bernedoodles Adoption Policies

Please review prior to submitting an adoption application:

Lifetime Commitment: A decision to adopt a dog means you have made a decision to care for that pet for its entire life. Please think through this extremely important decision before you apply to adopt. A pet becomes a family member. A responsible pet owner/guardian makes life decisions to include their pets. Our goal is permanent placement.

- Adopters must be at least 21 years of age.
- We adopt puppies to all sorts of families and there is transportation (additional fee) if needed/wanted.
- All dogs must reside with you in your living space and not be left unattended outside or in non-residential buildings.
- You must agree to spay or neuter each puppy you adopt into your family from us (exceptions may apply).
- All cats and dogs currently in your care must be current with rabies vaccine and dogs must be on heartworm preventative treatment (exceptions may apply).
- If you are renting your home or are in a condo association, we will ask you to verify that there are no restrictions on breed or number of animals in your lease agreement.
- All puppies are the sole custody of Five Star Bernedoodles until a finalized adoption contract is signed.
- If at any time after an adoption you are unable to keep the puppy for any reason, the dog **MUST** be returned to Five Star Bernedoodle.
- Misrepresentations on an application will automatically disqualify you from adoption.
- Once an adoption is approved, Five Star Bernedoodles will work with you, to the best of our ability, with your pick up date.
